Payment for Care

ARIZONA PIONEERS' HOME PAYMENT FOR CARE CALCULATION POLICY

POLICY: It is the policy of the Arizona Pioneers' Home that each Resident shall pay, to the extent that they are financially able to do so, the cost incurred by the State of Arizona for their care as stated in A.R.S. 41-923-D, E.

AUTHORITY: A.R.S. 41-923-D, E

A person admitted to the Arizona Pioneers' Home shall pay to this state, to the extent that he is financially able to do so, the cost incurred by this state for his care. The cost shall be paid monthly to the superintendent and shall not be in excess of the average monthly per capita cost of operating the home based on the average number of persons then residing at the home during the year. A person who neglects or refuses to reimburse this state as required under this subsection shall not be permitted to reside at the home during the continuance of this neglect or refusal to pay. This subsection applies only to those persons admitted to the home after August 11, 1970.

In determining the cost to the person, the superintendent shall consider the same factors for each person and shall include all assets and income of the person including the fair market value of any asset owned by the person and disposed of during residency or within two years before admission to the home. The superintendent shall verify all applicant and Resident financial information.

CALCULATION OF PAYMENT FOR CARE

All sources of income added together
- \$300.00 Resident Spending Allowance Deduction
= Total Countable Income
- All Allowable Credits added together
= Payment for Care per month
+ Additional Services if applicable (cable or infirmary)
= Total monthly payment

- Residents (except qualifying miners) are required to pay, to the extent that they are financially able to do so, the cost incurred by the State of Arizona. A.R.S. 41-923 (D).
- At the Arizona Pioneers' Home, per the above Arizona Revised Statute, the cost of living here is income based and we offer certain credits, that will lower the amount of Payment for Care that a Resident pays every month, which is recalculated annually or anytime a Resident's income changes.
- The calculations of assets that have income potential are included as monthly income.
- Payment for Care is recalculated annually and any time a resident's income or approved credits change. The resident/resident representative is required to sign and submit the recalculation following review.
- The following Income/Credits chart shows what income is counted and what credits are offered. Any income received, even if not on the list, is reportable.
- The Payment for Care calculation is as follows:
 - All sources of income are added together (monthly, quarterly, annually and occasional income).
 - The Resident Spending Allowance Deduction of \$300.00 is subtracted from the total income and the remaining amount is the Total Countable Income.
 - Allowable credits are added together.
- ♦ We then subtract the total allowable credits from the total countable income and the remaining amount (your Payment for Care) is what a resident pays to live at the Arizona Pioneers' Home.
- ♦ We then add extra services, if applicable, to the Payment for Care amount, and this is your monthly payment. The extra services available are:
 - Cable TV: currently \$17.00 per month.
 - Infirmary charge: currently \$125.00 per month.
